

# Harley Jeffery Bio

## *About the Author*

---

Harley Jeffery has worked in the field of Industrial Process Controls for over 35 years starting with Fisher Controls as a valve application engineer and the last 28 years with Control Southern as a control systems engineer. His experience includes design, implementation, testing, startup and on-going improvement of Analog, Distributed and Digital Control Systems. Harley received a BSIE from Louisiana State University in 1974 and completed the Monsanto E/I School in 1978. He is currently a Process Control Consultant and Project Manager with Control Southern Inc.
